

- **Complete denomination:** University of Malta
- **Location (city, country):** Msida, Malta
- **Dean:** Professor Nikolai Attard
- **Contact person in NEWGEN:** Professor Josette Camilleri
- **Working Group involvment:** MC Member; WG 4: In vitro testing
- **Staff:** Clinical and Research

- **Research topics:** Cements, tricalcium silicate-based materials, material characterization, in vitro testing

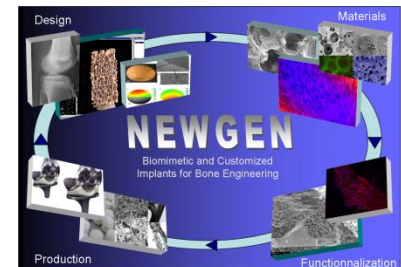

- **Researchers expertises:** Material Characterization

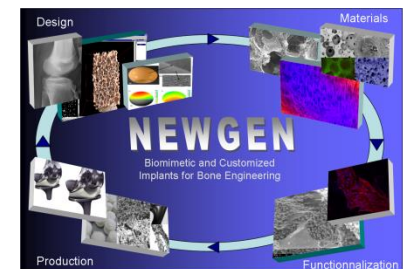

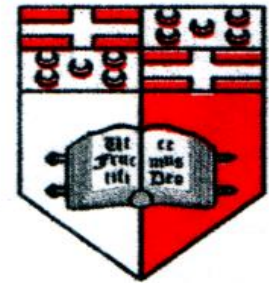

Name/Acronym

Institution

Street n°

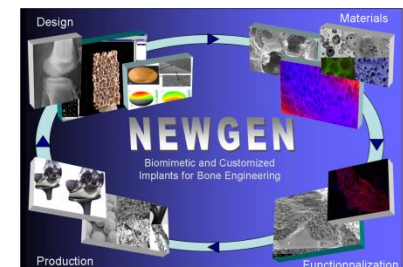

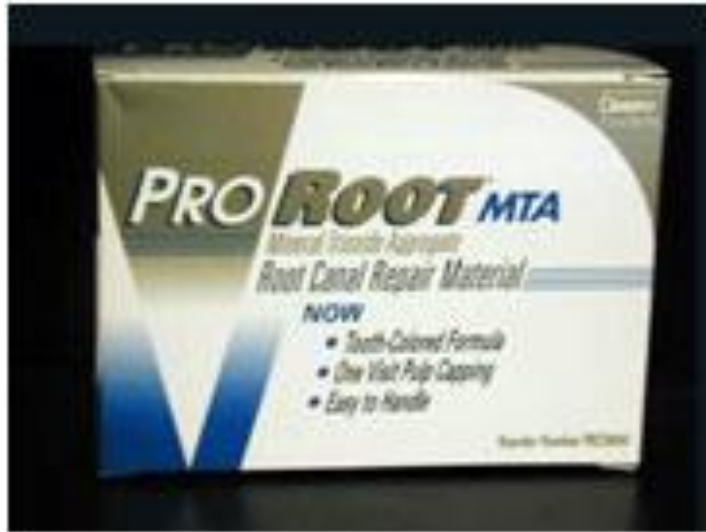

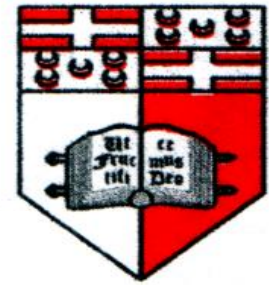

Postcode, city - COUNTRY

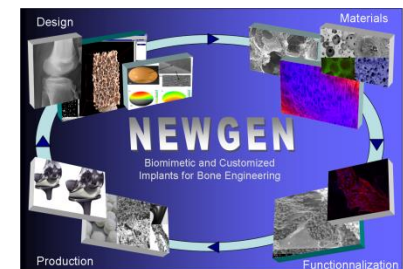

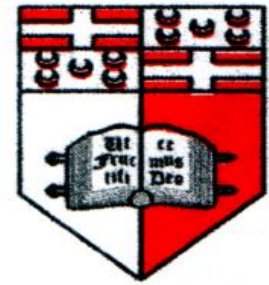

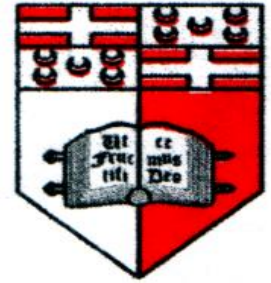

University of Malta

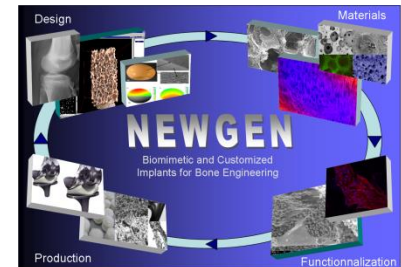

BIOMATERIALS/NEWGEN TOPICS

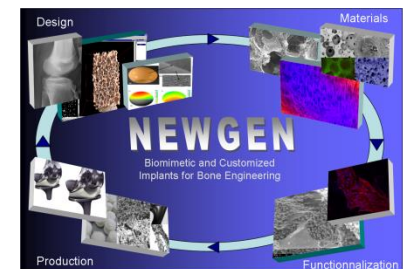

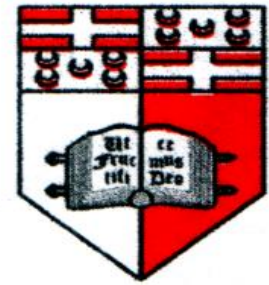

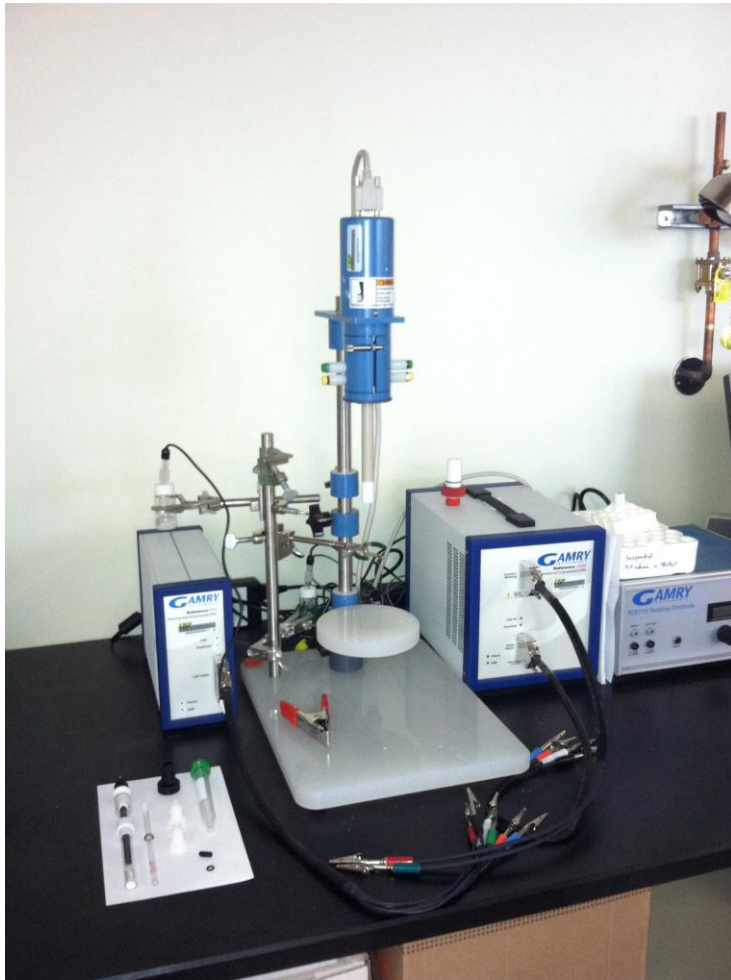

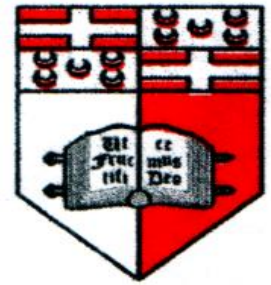

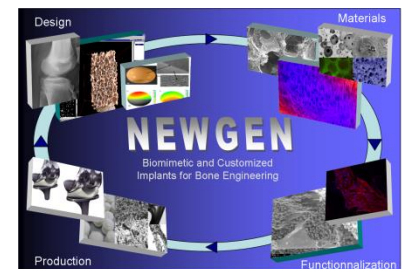

- Material preparation
- Vacuum impregnation
 - Hard tissue microtome
 - Automatic polisher

Potentiostat

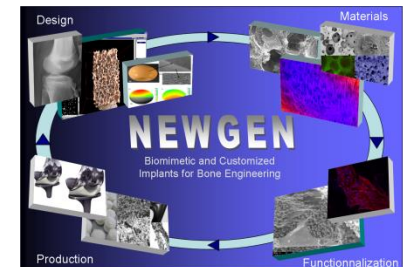

Light microscope complete with

- Transmitted light
- Reflected light
- Polarizer
- Fluorescence

Confocal microscope

- X-Ray diffraction analysis
- Grazing angle
 - Powder diffraction
